Award Description	The Seattle Police Department (SPD) Internet Crimes Against Children (ICAC) Task Force has participated in the federal ICAC Task Force Grant Program since 2000. The funding from the OJJDP Recovery Act ICAC Task Forces will be used to prevent, interdict, investigate and prosecute offenders who victimize children. It is also an opportunity to promote economic recovery by retaining two positions and creating one new position. The program goal is to address the problem of an exponential increase in the number of child exploitation, child obscenity and pornography cases. SPD will address this problem by strengthening regional investigative capacity, analyze training deficiencies and investigative inefficiencies, and continuing public

outreach/education to students and parents. The Recovery Act funding will provide the opportunity to purchase of a digital forensic van to assist with all forensic examinations and increase the effectiveness of moving cases faster to prosecution. SPD will serve as the lead agency within Washington State and will measure the program's success by several indicators: 1) the increase in the total number of participating ICAC affiliate agencies, 2) the percentage increase in the number of investigations, arrests, and prosecutions, 3) the number of attendees who complete investigative techniques training, and 4) the number of requests for technical assistance from affiliate agencies.

efforts resulted in a total of over 100 partner agencies within our region including 12 Native American Tribal agencies. The ICAC Program Analyst continues to seek additional partners to increase regional capacity and to develop regional training opportunities. The ICAC Program Analyst coordinated four training events to support the continuing education effort on current and emerging technologies and ICAC best practices. In February, an event presented by The Innocent Justice Foundation (TIJF) and the National District Attorneys Association (NDAA) occurred. TIJF course offered professionals exposed to child sex abuse images and may interact with child sex offenders a chance to learn about causes and symptoms of negative effects that may occur as result of their duties and ways to mitigate them. NDAA provided training on digital evidence best practices in investigating and prosecuting child abuse and technology facilitated child exploitation crimes. Other training included SEARCH courses Advanced Responders: Search & Seizure of Networks, Social Networking Sites: Investigative Tools & Techniques, and Fox Valley's ICAC First Responder class, during March. We worked collaboratively with a few of our Eastern WA affiliates to secure no-cost venues and marketing these events to other Eastern Washington affiliates.
